

Building Guide Information

The number beside your club indicates the number of members/advisors/parents that are to serve on the indicated date and time. If you have more volunteers than required, you might want to split the shift. A minimum of 6 guides (more are always welcome) are needed in each of the two 4-H buildings (#10 and #12). **Adult volunteers or parents should be present in each building, especially for the late evening shifts when extra security and supervision are welcome. You will only need to stop in and check on the youth education center in the community center so no need to station anyone there.**

Have your guides sign in and get a badge in **BUILDING #12 4-H Building guide area**. Please **WEAR** the “4-H BUILDING GUIDE” BADGE WHILE WORKING YOUR SHIFT. Rotating buildings during your shift is encouraged. Also, please return your badge to the box when you sign out. There will also be information on how to join 4-H at this table if anyone asks you!

Duties of the Building Guides are:

- Share information about 4-H with visitors
- To make sure visitors observe the “NO SMOKING” signs.
- Keep the grounds around buildings #10 and #12 picked up and flowers watered.
 - Pick up any litter on the floor.
 - Sweep the building floor and the cement in front of the building.
 - Be sure all debris is swept up and put in the trash.
 - Please do not leave swept trash in the midway.
- Report any fencing that comes loose.
- Wipe and clean glass tops and fronts of the display cases.
- Provide information to fair visitors.
- Please check on youth education corner in the community center to make sure it is picked up

You are representing Medina County 4-H; let's remember “***to make the best better.***”

If your club is unable to make the scheduled time, please make arrangements with another club to change shifts.

Thanks for helping us with this important duty of the fair!
